

Press release

eCo Software, December 18, 2004

eCo Software has announced the release of JUne system utility which allows unerase files and directories from JFS volumes.

This is the unique product on the market. It's regular step in improvement of JFS support for eComStation operating system.

Previous projects:

1. Providing information to users about features and advantages of JFS file system. Propagation of JFS.
2. Participation in BooJFS project (Bootable JFS for eComStation; Customer: Serenity Systems International, USA)
3. JRescuer utility to recover data from damaged JFS volume.

"We have founded the base for future improvement of JFS in eComStation," according to Pavel Shtemenko, chief engineer of eCo Software. "We are going participate in the development of two additional JFS products in 2005."

JUne is FREE for JRescuer customers.
